Course Director's comments on participants' views about the strengths and weakness pertaining to the course

S. No.	Participants' views	Course Director's comments
	General	
1.	Course was excellent and shall prove to be of great help for us. Offline refresher course on similar pattern be organized in near future once prevailing conditions improve.	Under the current COVID-19 pandemic situation, online course was the best option available. In future on-campus courses shall be organised
2.	Sir as most of our officers are not using these type of softwares, used for meeting..... No doubt new gen officers are daily in touch.... But those who are not in daily touch face problem during meeting sessions.... Like login etc and so many problems at our end also.... So try to organize physical training session when covid-19 gets over or simple online software if possible	Two demonstration sessions were conducted before start of the training to make the participants comfortable in using Microsoft Teams online mode. However, some participants did not attend the same
3.	All the officers who are attending training should be free from office job/assignments for training period for full concentration. Personally me as a DDO has to look for other issues. My works under Capex state plan for current posting and previous posting were being checked during this period through DC office.	The concerned authorities of J&K Forest Department may look into it as full attention of the participants is necessary for successful training.
4.	This training should also be imparted to all the staff of forest department in Jammu and Kashmir	The selected Master Trainers from J&K may be entrusted to train the field staff further.
	Duration	
5.	Excellent Module but paucity of time and face to face interactions can make more effective and efficacious.	The Course aimed at introducing the Central Legislations to the participants. A balance between legislations to be dealt with and time was maintained. Group discussion, presentation by participants and experience sharing was included to provide extended time for the particpants to raise
6.	All is well.. But Discussion Session Should have more time in future.	
7.	More time and sessions for the doubt clearance and Q&A. Not more than 2 lectures a day.	

		queries and clarify their doubts
8.	I suggest that these types of training courses should be done after every three months of period.	The identified Master Trainees may be given the task of conducting refresher courses at regular intervals for field staff.
Content		
9.	Kindly include more successful trial stories while explaining any forest related law	Case materials, judgments, prosecution and investigation related documents have been shared with the participants. Conducting demo and practical sessions through online mode has got limitations.
10.	Overall it's useful	
11.	As related to J&K please give more importance to FRA, NGT & Environment law as well as Biodiversity Act	
12.	Strength is course material and weakness is need for Some demo and practical sessions	
13.	Written material should be provided in advance for clearance of doubts rest overall the contents are very useful for service matters
