# EXECUTIVE SUMMARY

The Central Academy for State Forest Service (CASFOS), Burnihat, under the aegis of the Directorate of Forest Education (DFE), Ministry of Environment, Forest and Climate Change, Government of India, organised a three-day training programme for college students on the theme “Lifestyle for Environment” from 19th to 21st August 2026.

The programme was sponsored by the Ministry of Environment, Forest and Climate Change, Government of India, under the scheme “Forestry Training & Capacity Building”, as part of the Training of Other Stakeholders programme. The training programme was organized with the objective of sensitising and empowering young students on issues related to environmental conservation, sustainable living and climate change. The programme was aligned with the objectives of Mission LiFE (Lifestyle for Environment), which seeks to encourage individuals and communities to adopt environmentally conscious behaviours and make sustainable choices in their everyday lives.

The programme aimed to strengthen awareness among young citizens regarding their individual and collective responsibilities towards environmental protection and to encourage them to become active stakeholders in the conservation of natural resources and biodiversity.

## Objectives of the Programme

The major objectives of the training programme were to sensitise college students towards environmental conservation and sustainable development. Familiarise participants with the objectives and principles of Mission LiFE. Promote environmentally responsible lifestyles and sustainable consumption practices. To create awareness regarding climate change, environmental pollution and their impacts. Highlighted the importance of biodiversity conservation and ecosystem protection to them. To introduce participants to practical approaches and tools for creating environmental awareness. Encourage young people to become ambassadors of sustainable and environmentally responsible practices within their institutions and communities.

A total of 85 college students from Assam and Meghalaya states registered for the training programme. Of these, 30 students were selected on the basis of early registration and maximum participation of different colleges in the programme.

### **The participants comprised:**

- 20 female students
- 10 male students

The participants represented various colleges from Assam and Meghalaya States and displayed considerable enthusiasm and active participation throughout the programme. Shri Pankaj Das, Superintendent, CASFOS Burnihat, welcomed the participants and provided an overview of the Academy and the training programme. He apprised the participants of the aims and objectives of the programme, the target group and the expected outcomes.

Shri Rahul M. Rohane, IFS, Principal, CASFOS Burnihat, in his inaugural address, highlighted the important role of young minds in shaping the future of Viksit Bharat. He highlighted the initiatives and measures taken by the Government of India to protect forests, Wildlife, Rivers, Wetland Ecosystem to the country. He emphasised that

sensitising and empowering the youth on environmental issues would make a meaningful contribution towards achieving the broader objectives of nature conservation and sustainable development. He also delivered a session on Mission LiFE – Lifestyle for Environment, wherein he explained how small and conscious changes in individual lifestyles can collectively contribute to environmental sustainability and strengthen the movement for Mission LiFE.

The training programme comprised a series of lectures, interactive discussions and practical sessions delivered by eminent guest speakers and resource persons. The resource persons deliberated on various themes relating to environmental conservation, sustainable lifestyles, climate change, pollution, biodiversity and environmental awareness.

**The major topics covered during the programme were:**

**Conservation Ethos and Sustainable Lifestyle by Dr. L.C. Bandana, IFS, Lecturer**

The session explored the importance of developing a strong conservation ethos and integrating sustainability into everyday life. Participants were encouraged to adopt responsible habits that reduce environmental impact and promote long-term ecological well-being.

**Mission LiFE Movement by Shri Rahul M. Rohane, IFS, Principal, CASFOS Burnihat**

The session introduced participants to the Mission LiFE (Lifestyle for Environment) movement and its emphasis on adopting sustainable, resource-efficient lifestyles. It highlighted how individual choices and collective action can contribute to environmental conservation.

**Communication for Conservation by Dr. Narayan Sharma, Assistant Professor, Cotton University**

The session focused on the role of effective communication in creating awareness and encouraging positive environmental behaviour. It highlighted appropriate communication approaches for engaging communities and conveying conservation messages effectively.

**One Health Concept and Environmental Pollution by Dr Mohammad Siraj Ansari, Scientist, CASFOS Burnihat**

The session explained the One Health approach, emphasising the interconnectedness of human, animal, and environmental health. It also examined the impacts of environmental pollution and the need for integrated approaches to address emerging health and ecological challenges.

**Effective Tools for Awareness of Sustainable Lifestyles & Hands-on Session for Participants by Ms Sudeshna Gupta, Education Officer**

The session introduced participants to practical tools and methods for creating awareness about sustainable lifestyles. The hands-on component enabled participants to apply these approaches and develop practical strategies for promoting environmentally responsible behaviour.

**Green Initiatives in Urban Landscapes by Dr. N. Manika, Senior Manager, Member of the IUCN Commission on Ecosystem Management & the Society for Ecological Restoration**

The session highlighted the importance of incorporating green initiatives into urban planning and landscape management. It discussed practical approaches such as enhancing urban greenery and promoting environmentally sustainable practices to create healthier and more resilient cities.

**Visit to North East Cane & Bamboo Development Council**

On the afternoon of 19th August 2026, the participants visited the North East Cane &

Bamboo Development Council (NECBDC), Burnihat. The visit provided participants with an opportunity to understand the potential of cane and bamboo as sustainable natural resources and their applications in promoting green infrastructure and environmentally sustainable livelihoods. The exposure also helped participants appreciate the importance of sustainable utilisation of natural resources. They explored the manufacturing & processing of Bamboo products in their workshop.

### **Bird Watching and Trekking at Garbhanga Reserve Forest**

On 20th August 2026, the participants were taken to Garbhanga Reserve Forest for bird watching and trekking. The field activity provided first-hand exposure to forest ecosystems and biodiversity and helped participants appreciate the ecological significance of forests and the importance of conserving natural habitats. The activity also served as an experiential learning component of the training programme by connecting classroom discussions with real-world environmental settings. The students observed few bird species, butterflies and spiders on the track and were explained about their roles in ecology.

### **Valedictory Session**

The valedictory session was graced by Shri Cavouright P. Marak, IFS (Retd.), Hon'ble Chairperson, Meghalaya Lokayukta, as the Chief Guest. In his valedictory address, Shri Marak emphasised the role and responsibility of every individual in promoting environmental conservation. He highlighted that environmental protection is a collective responsibility and that every person can contribute to the cause of environmental conservation as an individual, as a member of a community and as a responsible citizen. He encouraged the participants to carry forward the knowledge and values acquired during the training and to incorporate environmentally responsible practices into their personal, academic and professional lives. He also appreciated the students for taking the initiative to participate in the training programme and described their participation as an important first step towards becoming responsible stakeholders in environmental conservation.

The Chief Guest presented the Certificates of Completion to the participating students.

### **Learning Outcomes of the Programme**

The training programme successfully provided participants with a combination of classroom-based learning, expert interaction, practical exercises and field exposure.

1. The programme helped to enhance awareness among students regarding Mission LiFE and sustainable lifestyles.
2. It improved understanding of environmental conservation and biodiversity protection.
3. Sensitised participants to issues relating to climate change and environmental pollution.
4. The Programme promoted individual responsibility and environmentally conscious behaviour.
5. Participants were provided practical exposure to sustainable resource utilisation and forest ecosystems.
6. The training encouraged the participants to act as catalysts for environmental awareness within their colleges, communities and peer groups.

The active participation and enthusiasm demonstrated by the students throughout the programme indicated a high level of interest in environmental issues and sustainable living.

### **Feedback from Participants**

The programme received an overwhelmingly positive response from the participants. The

students appreciated the relevance of the topics, the interactive nature of the sessions and the field-based activities incorporated into the programme. The participants expressed their interest in attending similar training programmes on a regular basis in order to sustain the momentum of environmental awareness and conservation. They also suggested that, wherever feasible, similar awareness and capacity-building programmes may be organised at the college level to facilitate wider participation of students and teachers and to extend the outreach of Mission LiFE.

### **Sharing of Training Material**

The presentations delivered by the resource persons during the various sessions, along with photographs taken during the training programme, were shared with the participants in digital format for their future reference and wider dissemination.

### **Conclusion**

The three-day training programme on “Lifestyle for Environment” provided an effective platform for sensitising and empowering college students on the importance of sustainable living, environmental conservation and individual responsibility. The combination of expert-led technical sessions, interactive activities and field exposure enabled the participants to gain a better understanding of the principles of Mission LiFE and their practical application in everyday life.

The enthusiastic participation and positive feedback received from the students demonstrate the relevance and effectiveness of such capacity-building initiatives. The programme also reaffirmed the importance of engaging young people as key stakeholders and potential ambassadors in the collective effort towards environmental conservation, sustainable development and climate action.

The detailed session-wise timetable, indicating the topics covered and the resource persons for each session, is enclosed.

**Format for reporting evaluation of Training course conducted by the institute/organization for other stakeholders sponsored by the Ministry of Environment, Forests & Climate Change, GOI, New Delhi as per the merged format of MoEF&CC**

| 1. | Overall excellent course in terms of course aims met to their full satisfaction. Course content highly informative & relevant & significant increase in knowledge. | 30                                       | Every aspect of the Course in terms of content & structure was thoroughly planned in advance, deliberated among the authorities & well taken care of, which yielded a positive outcome.                                                                                                                                                                                                                   |
| 2. | Excellent Logistics including Accommodation, Food quality, Classroom facilities, Hospitality, Time management, Campus ambience etc.                                | 23                                       | Every aspect of Logistics was taken care of after thorough deliberations, planning & briefings among the implementing/ managerial officials, which yielded positive remarks.                                                                                                                                                                                                                              |
| 3. | The Resource Persons and their lectures were overall excellent in their Content, Deliberations, presentation skills, and quality of discussion/ interaction.       | 25                                       | Timely communication with Resource persons about the aims/ objectives, target audience, mapping & keeping their feedback in view through various previous trainings, etc., resulted in a positive outcome.                                                                                                                                                                                                |
| 4. | The Field visits were found most enlightening, learning & beneficial to connect with nature.                                                                       | 29                                       | Field visits with the aim of exposure to green technology in the cane & Bamboo sector, especially in the NE region. Bird watching and trekking in forest areas were conducted for immersive learning.                                                                                                                                                                                                     |
| 5. | Participants suggested the addition of more Hands-on sessions, field visits, and topics on sanitation awareness and recycling.                                     | 19                                       | The majority of participants found all the topics are relevant and important covered during the Course, while a few suggested additional topics. Sessions on recycling, waste segregation, and sustainable waste management will be considered for inclusion to enhance participants' awareness of environmentally responsible practices. Hands-on sessions and field visits are already in the schedule. |
| 6. | Duration of the course should be longer.                                                                                                                           | 11                                       | The training programme was planned as per guidelines prescribed by the Ministry.                                                                                                                                                                                                                                                                                                                          |

## NUMERICAL VALUE OF FEEDBACK AND WEIGHTED AVERAGE

For calculation of numerical value of feedback, each factor is valued as a percentage value to the top grade given to the factor. If no answer is provided, it is excluded from the calculation. The average of the numerical values of factors consisting of the element is the numerical value of the element.

### 1. Course Content and Structure (CCS) = 92.02

- 1.1 Course aims met (94.17)
- 1.2 Increase in knowledge (90.83)
- 1.3 Relevance of content (92.24)
- 1.4 Reading Material (90.83)

### 2. Training Faculty (TF) = 92.25

- 2.1 Assessment of the Course contents/topics = (92.67)
  - 2.1.1 Contents (93.29)
  - 2.1.2 Presentation (92.11)
  - 2.1.3 Quality of Discussion/Interaction (93.39)
  - 2.1.4 Meeting for Objectives (91.89)
- 2.2. Field Visit Content (90.17)

### 3 . Usefulness of the Course (UOC) = 85.42

- 3.1 How useful to you immediately (82.50)
- 3.2 How useful to be for future jobs (88.33)

### 4 Overall Impression about the Course (OIC) = 83.33

### 5 Logistics (L) = (96.29)

- 5.1. Residential Accommodation (83.50)
- 5.2. Food Quality (93.83)
- 5.3. Class room facility (96.83)
- 5.4. Time Management (93.17)

### Weighted Average for the Course

For calculation of Weighted Average (WA), the following formula is used.

$$\text{WA} = (\text{CCS (100\%)} + \text{TF (100\%)} + \text{UOC (75\%)} + \text{OIC (100\%)} + \text{L (75\%)} * 100/450$$

$$\text{WA} = (92.02 + 92.25 + 64.065 + 83.33 + 68.535) * 100/450 = 89.01\%$$
