# **EXECUTIVE SUMMARY**

The Central Academy for State Forest Service (CASFOS), Dehradun, Uttarakhand, under the aegis of the Directorate of Forest Education (DFE), Ministry of Environment, Forest and Climate Change (MoEF&CC), has the mandate to conduct various theme-based short-term training programmes. In this context, CASFOS, Dehradun organized a three-day Training Programme for Other Stakeholders on “**Role of Communities in Mitigation of Man–Animal Conflict in Forest Fringe Areas**” from **12 November 2025 to 14 November 2025** for EDC/JFMC active members nominated by the Forest Department, NGOs, Primary Response Teams, and volunteers associated with the Forest Department. The programme comprised eight technical sessions delivered by subject matter experts, as well as a full-day field visit coordinated with resource persons from the local Forest Department. A total of 90 nominations were received from 11 States, out of which 35 participants from 10 States attended the training.

The training programme was inaugurated on **12 Novzember 2025** in the presence of **Smt. Kanchan Devi, IFS, Director General, ICFRE. Shri E. Vikram, IFS, Principal, CASFOS**, delivered the keynote address and provided an overview of the course objectives and expected outcomes. The programme commenced with sessions on Human–Wildlife Interaction and an introduction to the unique features of the Van Panchayat model in wildlife conservation. Participants were briefed on effective community engagement strategies for wildlife and forest conservation.

Successful community-based conservation models from **Meghalaya** and **Rajasthan** were presented by community representatives, illustrating how local involvement can significantly reduce negative human–wildlife interactions. Additionally, the senior forest officer shared noteworthy success stories from **Kerala**. A dedicated session on the use of modern technologies to support communities and the Forest Department in preventing and mitigating human–wildlife conflicts was delivered by a technical expert.

Another key component of the programme was the discussion on **alternative livelihood opportunities** for forest fringe communities aimed at reducing forest dependency, along with an overview of relevant Central Government schemes. This session was conducted by an NGO actively implementing such initiatives in collaboration with the Forest Department.

For the first time, a session was included on the effective and constructive use of **Community Forest Resources (CFR) under the Forest Rights Act, 2006**, in forest and wildlife conservation and mitigation of human–wildlife conflict. This was delivered by representatives of an NGO working in the field.

Participants also undertook a field visit to a Van Panchayat area and to designated elephant corridors.

Towards the conclusion of the programme, a Training Needs Assessment (TNA) was conducted. The **Valedictory Session** was presided over by **Shri Vikram, IFS, Principal CASFOS, Dehradun**, during which oral feedback from participants was obtained. ,

A compendium containing articles, presentations, and other relevant resource materials covered during the course—including the expert presentations from each session—was provided to all participants in digital format as part of the training kit.

The overall impact of the training programme was highly positive, as evidenced by the constructive feedback and high ratings received from the participants.

Format for reporting evaluation of refresher course conducted by the  
institute/organization for the SFS officers sponsored by the  
**Ministry of Environment, Forests & Climate Change, GOI, New Delhi** as  
per the merged format of MoEF&CC and JICA

S. No.	Participants' views	Participants who expressed the view	Course Director's Comments
1.	"The course was designed very well, and everything was excellent. If future courses are extended from 3 days to 5 days, it could be even better."	5	I appreciate the former part of the comments. However the latter part may be pondered upon
2.	Community visit should be properly organize where participants meet community people and Forest department together to understand their issues and solutions.	2	Since the community people are busy in the agricultural field work, the meeting of the community and the Forest Department could not be made to meet together.
3.	Thank you for excellent knowledge sharing, course should more practical sessions.	2	I appreciate it.
4.	"Overall the Programme was great and quite well prepared. Just want to get more knowledge so if duration of the program can be increased and also the fields visits can be done with core forest areas with more practical understanding, things would be very helpful for all of US.  Thanks"	1	I appreciate the comment. The comments on duration may be pondered upon.

**Numerical value of feedback and Weighted Average**

*For calculation of numerical value of feedback, each factor is valued as percentage value to the top grade given to the factor. If no answer is provided, it is excluded from calculation. (cf; where number of grades is 4, percentage value be 100, 75, 50, 25)*

*The average numerical value of factors consisting of the element is a numerical value of the element.*

**1. Course Content and Structure (CCS) = 88.75**

- 1.1 Course aims met (92.50)
- 1.2 Increase of knowledge (85.00)
- 1.3 Relevance of content (85.00)
- 1.4 Reading Material (92.50)

**2. Training Faculty (TF) = 80.67**

- 1. Contents (82.00)
- 2. Presentation (80.50)
- 3. Quality of Discussion/Interaction (84.67)
- 4. Meeting for Objectives (86.17)

Field Visit=

- 1. Contents (78.00)
- 2. Meet for Objectives (78.00)

**3. Usefulness of the Course (UOC) = 87.50**

- 3.1 How useful to you immediately (87.50)
- 3.2 How useful to be for future jobs (87.50)

**4. Overall Impression about the Course (OIC) = 90.00**

**Weighted Average for the Course**

For calculation of Weighted Average (WA), the following formula is used

$$\text{WA} = [\{\text{CCS (100\%)} + \text{TF (100\%)} + \text{UOC (75\%)} + \text{OIC (100\%)} + \text{L (75\%)}\} * 100] / 450$$

$$\text{WA} = [(88.75 + 80.67 + 65.63 + 90.00 + 71.46) * 100] / 450 = 88.11\%$$
